🔗 Portfolio

Profile

Software Engineer with 3+ years of experience in backend and full-stack development using .NET, C#, Angular, and SQL Server. Experienced in developing enterprise applications, e-invoicing solutions, cross-platform mobile applications, and third-party API integrations. Skilled in building scalable, maintainable systems using ASP.NET Core, REST APIs, OOP, Agile methodologies, and unit testing.

Professional Experience

2025/01 – Present
Cairo

Software Engineer

Qortova

- Designed and maintained cross-platform mobile and web applications using .NET, gRPC, and MAUI, **improving cross-device functionality by 35%**.
- Developed high-performance RESTful APIs and gRPC services handling **10,000+ daily data exchanges** with minimal latency.
- Engineered cross-platform desktop UI components using Avalonia, **reducing user interface navigation delays by 20%**.

2023/12 – 2025/01
Cairo, Egypt

.Net Developer

Freelance

- Successfully integrated **Paymob payment gateways and Infobip communication APIs across 5+ client projects**, reducing checkout drop-off rates by **15%**.
- Executed legacy database migrations to modern SQL Server architectures for **3 enterprise clients**, ensuring **99.9% data accuracy** and zero downtime.
- Delivered tailored backend solutions and custom services within tight deadlines, maintaining a **100% on-time project completion rate**.

2021 – 2025/10
Cairo, Egypt

Technical Solution Engineer

Orchida Soft

- Integrated e-invoicing and e-receipt systems with the Egyptian Tax Authority (ETA) and Saudi ZATCA platforms for **20+ corporate clients**.
- Resolved **100+ technical tax-integration issues**, maintaining a **95%+ compliance accuracy rate** across enterprise solutions.
- Automated API data payload validation processes, **cutting integration troubleshooting time by 30%**.

Education

2021/01 – 2021/06
Cairo

Very Good

ITI 3 Months

New Damietta, Egypt

Bachelor's

Success Institute of Computer Science

Courses

Cairo, Egypt

Front end Development (Angular)

Route Academy

Cairo, Egypt	Back end Development (ASP.NET Core) <i>Route Academy</i>
Mansoura, Egypt	CCNA <i>IT Share</i>
Online	Web Development (php) <i>I Trax Academy</i>

Projects

TUT Mobile App

Smart Urban Transportation Platform

- Developed a **.NET gRPC backend** for real-time communication and business operations.
- Built **three .NET MAUI applications**: **TUT Rider**, **TUT Driver**, and **TUT Backoffice (Windows)**.
- Implemented **real-time driver-passenger communication**, trip management, and route optimization.
- Improved operational efficiency for electric vehicle fleets by **25%**.

AgriLims Mobile App

Laboratory Management System for Agriculture

- Designed an **offline-first mobile application** using **.NET** and **Avalonia UI**.
- Implemented **SQLite** for local data storage, enabling users to work without an internet connection.
- Built an **automatic background synchronization** mechanism to sync local data with the central server every **5 minutes**.
- Ensured **data consistency** and reliable synchronization between the local SQLite database and the remote server.

Invoice Transfer Project – Misr Petroleum Company

Fuel Station Receipt Management System

Engineered a mobile application for handheld devices used by gas station attendants. Integrated the system with fuel pumps to receive real-time receipt and invoice data, enabling attendants to complete transactions with a single tap and instantly synchronize invoices with the central server.

Fishing Hub

A backend system developed with .NET for a global fishing community. The platform consists of multiple modules, allowing users to book fishing boats, purchase fishing equipment, and check weather conditions. It also includes social features that enable users to communicate with one another through real-time chat, posts, and comments.

Soft Skills

- | | |
|------------------------------------|-----------------------------------|
| • Time Management and Organization | • Open to Learning and Adaptation |
| • Teamwork | • Conflict Resolution |

Technical Skills

- C#
- TypeScript
- OOP
- .Net MAUI
- Angular
- LINQ
- Solid Principles
- Data structure
- HTML
- Git & Github
- Azure Data Studio
- gRPC
- GS3
- Kafka
- Caching — Redis
- CAP Theorem & consistency
- JavaScript
- Microsoft SQL Server
- ASP.NET MVC
- .NET API
- Entity Framework Core
- Signal R
- Microservices
- Design Patterns
- CSS
- React
- Avalonia
- Google Cloud
- DDD
- RabbitMq
- Scalability & Performance
